<p>Relevant Proposals:</p> <p>Contributions towards improvements to <i>existing library</i> services will be required from developments that will result in a net increase of 1 or more dwellings.</p> <p><i>New libraries</i> will be required in one of two instances:</p> <ol style="list-style-type: none"> 1. NCC has a target for 85% of the resident population to live within 2 miles of a static library. This will be maintained, where necessary, by siting new libraries in new developments. 2. Where a library is within 2 miles of a new development, there may still be a requirement for a new library if the existing libraries in the area do not have space to expand, or if accessibility to those libraries is poor. <p style="text-align: right;">(Annex A, p.34)</p>
